Cilji in kompetence:

Učna enota prispeva predvsem k razvoju naslednjih splošnih in specifičnih kompetenc:

- poznavanje in razumevanje procesov v poslovniem okolju organizacije in sposobnost za njihovo analizo, sintezo in predvidevanje rešitev ter njihovih posledic;
- fleksibilna uporaba znanja v praksi;
- sposobnost za reševanje konkretnih delovnih problemov na področju upravljanja in poslovanja z uporabo znanstvenih metod in postopkov;
- sposobnost pridobivanja, selekcije in evalvacije novih informacij in zmožnost ustrezne interpretacije v kontekstu na področju ekonomije, podjetništva, poslovne informatike, ravnanja z ljudmi, kvantitativnih metod, prava in poslovodenja;
- razumevanje in uporaba metod kritične analize in razvoja teorij ter njihova uporaba pri reševanju konkretnih delovnih problemov;
- razvoj veščin in spretnosti pri uporabi znanja na določenem strokovnem področju s pomočjo praktičnega usposabljanja.

Objectives and competences:

The learning unit mainly contributes to the development of the following general and specific competences:

- knowledge and understanding of processes in the business environment of an organisation and the ability to analyse, synthesise and envisage solutions and their consequences;
- flexible use of knowledge in practice;
- the ability to solve concrete work problems in the field of management and business using scientific methods and procedures;
- the ability to collect, select and evaluate new information as well as to interpret them appropriately in the context of the economy, entrepreneurship, business informatics, human resource management, quantity methods, law and business management;
- understanding and use of the methods of critical analysis and the development of theories as well as their use in solving concrete work problems;
- development of skills to use the knowledge in a specific professional field through practical training.

Predvideni študijski rezultati:

Znanje in razumevanje:

Student/Studentka:

- pozna in razume vlogo in pomen analiziranja računovodskih izkazov;
- pozna in razume osnovne pristope k analiziranju računovodskih izkazov;
- pozna in razume značilnosti analiziranja računovodskih izkazov ter nevarnosti

Intended learning outcomes:

Knowledge and understanding:

Students:

- know and understand the role and significance of the analysis of financial statements;
- know and understand the basic approaches to the analysis of financial statements;

<p>napačnega oblikovanja informacij;</p> <ul style="list-style-type: none"> • pozna in razume temeljne informacije, ki izhajajo iz analize računovodskih izkazov; • uporablja temeljne metode, tehnike in orodja računovodske in finančne analize; • uporablja osnovne modele analiziranja in jih zna prilagoditi konkretnim potrebam poslovanja; • pridobljeno znanje uporablja v različnih razmerah poslovnega življenja, tako da oblikuje informacije za obvladovanje tveganja in učinkovito odločanje; • reflektira in kritično ovrednoti različne informacije in različne pristope k analiziranju; • kritično presoja strokovno literaturo in ugotovitve ustrezno prenaša v prakso; • reflektira in ustrezno kritično ovrednoti dejanski ekonomsko-finančni položaj podjetja, pri čemer teoretična izhodišča uspešno dopolnjuje s prakso; • je sposob-en/-na analitičnega in sistematičnega pristopa k problemu, jasnih zaključkov in oblikovanja ustreznih informacij; • je sposob-en/-na izdelave preglednega in skladnega poročila ter ustreznih predlogov. 	<ul style="list-style-type: none"> • know and understand the characteristics of the analysis of financial statements and the risks of formulating information incorrectly; • know and understand the fundamental information arising from the analysis of financial statements; • use the basic methods, techniques and tools of the accounting and financial analyses; • use the basic models of analysis and be able to adapt them to the concrete needs of operations; • use the gained knowledge in various circumstances of business life in order to formulate information to manage risks and make effective decisions; • reflect on and critically assess various information and approaches to analysis; • critically assess the professional literature and transfer the findings to practice; • reflect on and appropriately critically assess the actual economic and financial position of a company, whereby the theoretical starting points are effectively complemented with practice; • are able to use analytical and systematic approaches to problems, draw clear conclusions and formulate appropriate information; • are able to prepare a transparent and compliant report and appropriate proposals.

Metode poučevanja in učenja:

- *predavanja* z aktivno udeležbo študentov (praktični primeri, diskusija, vprašanja, razlaga, reševanje problemov);
- *seminarske vaje* na primerih iz podjetij in povezava s prakso (refleksija izkušenj, konkretizacija teoretičnih izhodišč, timsko delo, predstavitev, diskusija);
- *domače naloge* (reševanje praktičnih problemov);
- *individualne in skupinske konzultacije* (dodatna razlaga, diskusija, obravnava posebnih primerov);
- *samostojen študij* (motiviranje, usmerjanje, samoocenjevanje, pridobivanje in preverjanje znanja v interesnih skupinah).

Learning and teaching methods:

- *lectures* with active participation of students (practical examples, discussion, questions, explanation, problem solving);
- *tutorial* including examples taken from companies and related to practice (reflection on experience, concretisation of theoretical starting points, team work, presentations, discussion);
- *homework* (solving practical problems);
- *individual and group consultation* (additional explanation, discussion, addressing special issues);
- *independent study* (motivation, guidance, self-assessment, gaining and assessing knowledge in interest groups).
